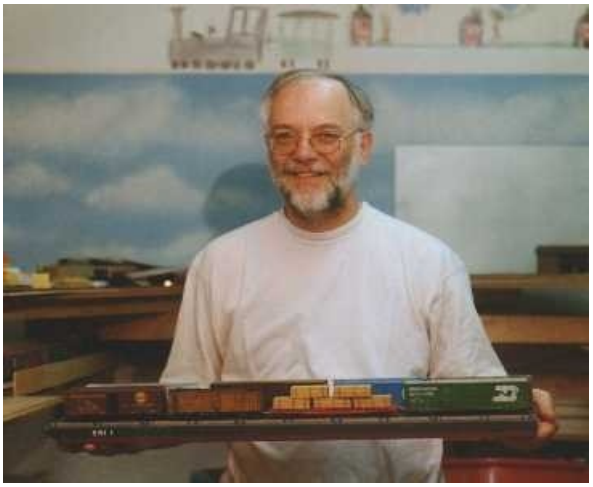
MMR_0452 Wolfgang Dudler

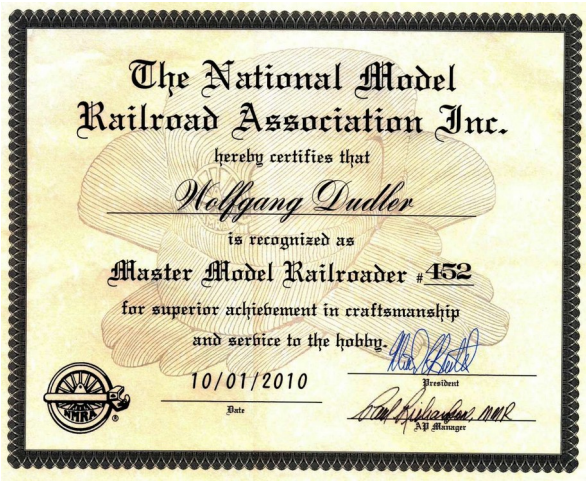
Wolfgang Dudler

Der Bahnhof Naumburg (H0 - model and prototype)

WESTPORT TERMINAL RR (freelance private roadname layout in modules, H0)

In October 2010 I've earned MMR 452.





Wolfgang revealed over on trainboard very late last year or in January that he had a very serious illness. I PM'd him immediately and wished him well...I admired the man, and wanted him to understand it. He replied that he felt it was his last bit on the forums and that he would be slipping away soon enough...no bones about it. He had been in a coma since Aug 02, 2012, and died yesterday, August 25, 2012. May he rest in peace. He was a heckuva good modeller and forum buddy.

Crandell

It is so sad to hear of the passing of this true master of model railroading. I never knew the man personally, but could tell that he was dedicated to the things he loved. The Westport Terminal and the Pueblo & Salt Lake railroads will live on in my mind because of Wolfgang's skill at what he did. Wolfgang has now passed over and will join other model railroad masters and icons. I can only imagine the layouts they will create together.

My condolences to Wolfgang's family and friends. ~Rob S.
